Lucy has also done special, solo presentations here, as part of our Dark*Starry*Nights series. She was very well received. Her subject matter is current and interesting; she is very well organized; she knows her stuff, and presents her material with enthusiasm. And she answers questions well from her audience.

I have worked with "Miss Lou C" Diamond on several occasions, having her on my show and being on her show. I find her open, receptive and willing to both take the lead and play a supporting role, in these experiences. She is always eager to trouble shoot or in any way improve the process so that the interviewee, host or listener will have the best experience. Her willingness to play all roles is credit to her ability to be an outstanding radio show hostess. ~**Dr. Kevin**
